ABOUT ME

I am Ali Hamza, a BSIT student at University of Education specializing in web development. I have hands-on experience with HTML, CSS, TailwindCSS, JavaScript, React, and Java. I am passionate about building interactive and responsive web applications, solving problems, and learning new technologies. I enjoy creating projects that improve user experience and enhance my technical skills.

EDUCATION

Bachelor in Information Technology

2025-2029

(University Of Education)

PROJECTS

Food-website (<https://food-website-project-lemon.vercel.app/>)

Built a responsive food ordering website that allows users to browse food items, view details, and interact with a structured menu system. Implemented dynamic layout handling and smooth navigation across different sections, ensuring usability on both mobile and desktop devices.

News-Website (<https://news-website-theta-orcin.vercel.app/>)

Developed a dynamic news website that fetches and displays real-time news using APIs. Implemented category-based filtering, responsive layouts, and smooth navigation to allow users to browse and read the latest news efficiently across different devices.

Tour and Travel app (<https://tour-and-travel-app-68nr.vercel.app/>)

Developed a responsive tour and travel application that allows users to explore destinations, view travel packages, and navigate different sections seamlessly. Implemented structured content display, smooth page navigation, and interactive UI components to enhance user engagement across mobile and desktop devices.

Portfolio website (<https://portfolio-website-seven-wine-49.vercel.app/#projects>)

Developed a personal portfolio website using React and Tailwind CSS to showcase my projects, skills, and contact information with a clean and responsive design.
